***Examiner's Reasons for Allowance***

1. The claims 10-15 have invoked means plus function pursuant to 35 U.S.C. 112, sixth paragraph. Where means plus function language is used to define the characteristics of a machine or manufacture invention, claim limitations must be interpreted to read on only the structures or materials disclosed in the specification and "equivalents thereof." (Two en banc decisions of the Federal Circuit have made clear that the Office is to interpret means plus function language according to 35 U.S.C. 112, sixth paragraph. In the first, *In re Donaldson*, 16 F.3d 1189, 1193, 29 USPQ2d 1845, 1848 (Fed. Cir. 1994), the court held:

The plain and unambiguous meaning of paragraph six is that one construing means-plus-function language in a claim must look to the specification and interpret that language in light of the corresponding structure, material, or acts described therein, and equivalents thereof, to the extent that the specification provides such disclosure.

Specifically, the "*means for moving the box-shaped cover with the cluster of the plurality of extending rollers located therein in an up and down direction and toward and away from the lower frame and the food-conveying member located therein so that the box-shaped cover and the cluster of the plurality of extending rollers therein can be moved upwardly and away from the food-conveying member*" is the arrangement of the structure described in the specification concerning the cover.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach an apparatus having a lower frame with conveying member, a

box-shaped cover with an opening in a bottom with a cluster of a plurality of extending rollers mounted in and to the box-shaped cover, the extending rollers being arranged to be endless and rotatable and means for moving the box-shaped cover with the clust of the plurality of extending rollers as described in the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
